

Lottery for Companies

La Bruja de Oro

The National Lottery draw on December 22nd is one of the most expected lottery draws of the year, in which many of us play a Lottery Ticket (tenth) with our friends, our partner or, as we will see in this article, with our co-workers. As the slogan of this remarkable **Christmas Lottery Draw** says **“The greatest prize is by sharing it”**.

It is very common for the Enterprise to request, at our Lottery Office, **The Golden Witch**, several 10 ticket lottery sets (series) of the same number, so that each employee, section, plant or factory can acquire the lottery tickets at their will, also having the advantage of being able to return the leftovers. The common way to carry out such orders has always *“been”* in a personal way, with a person in charge of the entire procedure, who orders the number, asking their colleagues, writing down how many **Lottery Tickets (tenths)** each one wants, collecting all the money, **handing out the Lottery for the Christmas Draw,...** If you have ever had to do it, you know what we are talking about due to its complexity. Despite being an extremely simple process, it carries responsibilities and a lot of work that we can solve right from the ‘Lottery for Enterprises’ section on our website. It is no longer necessary to invest time in collecting money to match the lottery tickets acquired, or in distributing lottery tickets among colleagues, since the internet makes life easier. And this alternative is the one that we want to explain to you in just a few words:

The process of buying the Christmas Lottery for Companies online at The Golden Witch.

Choose the way to play: Home Delivery, Digital or Mixed:

Home Delivery:

The Company can choose the **Lottery Ticket (tenth)** ending and quantity, a wire transfer is made and in 24 business hours it is sent via express courier (insured shipment at our expense), to the recipient enterprise with the lottery and the lucky envelopes of **The Golden Witch** as a gift.

Digital:

An access code is given in order to be able to log into the private section of your Company. So employees, friends and customers are able to buy **lottery tickets online at The Golden Witch**. When a **Lottery Ticket (tenth)** gets a prize, a notification is always sent. So it is not even necessary for you to spend time checking the draws. In the event of a lottery prize, we will automatically wire the money to the user account of each employee the day after the draw has taken place. Such transfers are limited to €2,000 due to Spanish law regulations, the money of the prize must be collected via a Spanish bank for amounts greater than €2,000 (by law). In this case, the **Lottery Ticket (tenth)** will be given to you after presenting the validation of the bet and the document certifying that you are the person who placed the order. Anyways, we would help you with all the steps so that you can collect the lottery prize via a bank without having the need to travel.

Mixed:

We always adapt ourselves to your needs. These examples are the options we have available to choose from:

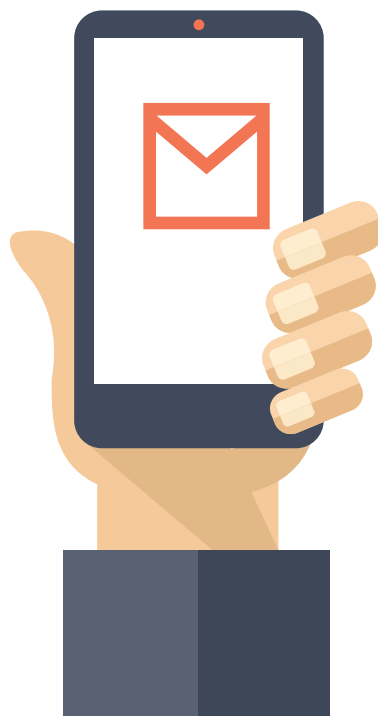

1) Employees buy lottery tickets online. Which will be physically delivered to the Company on an agreed date with a proper list in order to make the correct distribution based on the tickets acquired by each of them, along with their respective envelope of Good Luck.

2) Employees make the purchase online. Each of them will receive the tickets physically at their home address. Also, each employee has the possibility to participate in the Business Lottery without shipping costs by choosing Digital Lottery.

Purchase platform customization:

1.

Getting the number with which you wish your entity to play is quite easy. Put in touch with us via a message, indicating what you need. **Then we will make the booking of 'your' Christmas Lottery.**

2.

We will create an exclusive online section for your Company, so that each of the employees or authorized employees can acquire the amount of **Lottery tickets (tenths)** that they wish. Along with the logo of your Enterprise, Association, Football club,... and also a Christmas greeting message in case you want it.

3.

We will provide an explanatory email for your employees in order to help them with the steps to be followed using the **access code** to place a purchase.

4.

With the acquisition already made, each person must pay the total amount of tickets purchased (always at the same price as it would be at the **Lottery Office**), and choose the form of delivery method of the lottery tickets. It can either be sent to a specific address, or request a virtual lottery ticket. Once this process is done, a validation email will be received.

Advantages of acquiring the Lottery for Companies Online

The main advantage when carrying out such approach is the tranquility and security that the person in charge of said procedure has in each company. As **it is a customized channel provided to the Enterprise with said access code**, it can also be shared (if your team wishes to do so) to family members and clients. Any query you may have, one of our managers will always be available for you.

The best of Luck to everyone!
